TEXA Frame

A new textile frame system designed for illuminated
and non-illuminated displays

Product Brochure

Create seamless textile frames up to 3m wide

TEXA Frame is a new textile frame system that makes the installation of printed textile graphics fast and efficient.

Designed to display flex-face prints, the system can be used for non-illuminated installations or fabric lightboxes, with the addition of LED illumination. Double-sided and single-sided frames can both be created using different profiles from the TEXA Frame range up to a maximum width of 3000mm without a join. Larger sizes are possible using joining strips (joins are visible).

Featuring a range of extruded aluminium profiles, designed to accommodate different material thicknesses and LED illumination options, the system includes accessories to enable wall mounted,

freestanding and suspended textile frames to be created.

TEXA Frame has been designed to provide straightforward installation of printed textile graphics and future updates. Each printed textile fabric requires a silicone beading to be added to its outer edges which slots into a channel in the aluminium frame. The silicone is simply pressed into the frame which secures the slightly stretched fabric into position.

To create a fabric lightbox, SloanLED PosterBOX 3 modules, available, provide an illumination solution for both single and double-sided installations. Just two rows of facing modules are required along the top and bottom edges of the TEXA Frame to deliver bright and even illumination.

TEXA Frame is ideal for retail and leisure environments, commercial and exhibition displays.

Key features

- Easy to change graphics
- Illuminated and non-illuminated options
- Seamless printing up to 3m wide
- Single and double-sided profiles available
- Wall mountable or free standing
- Improve the acoustics of a room or create partitions
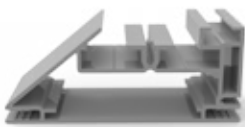

Profiles

Single-sided Textile Frame Profiles
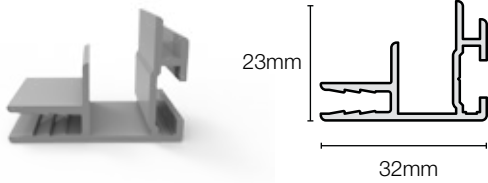

23mm
32mm

32 x 23mm (LED Light Sheet)

Length: 6100mm
Product code: TEXLLS32

Profiles for LED Textile Frames

Use TEXLEDCORN with this profile

42.5mm
102mm

Single sided LED textile profile 102x42,5mm (backlit)

Length: 6100mm
Product code: TEXLEDSS-BL

Use TEXLEDCORN with this profile
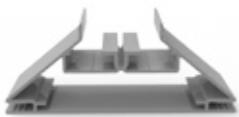

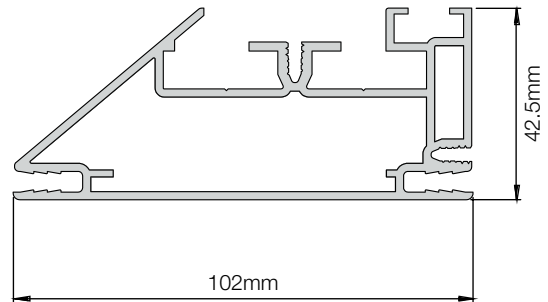

50mm
125mm

Double sided textile profile 127x50mm (backlit)

Length: 6100mm
Product code: TEXLEDDS-BL

Use TEXLEDCORN with this profile
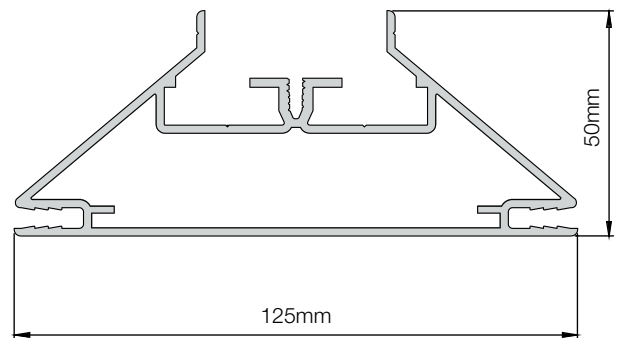

Single sided LED textile profile 102x42,5mm (edgelit)

Length: 6100mm
Product code: TEXLEDSS-EL

Use TEXLEDCORN with this profile

Double sided textile profile 127x50mm (edgelit)

Length: 6100mm
Product code: TEXLEDDS-EL

Accessories

Foot 400mm
Product code: TEXFOOT40   **Quantity:** 1

Foot 600mm
Product code: TEXFOOT60   **Quantity:** 1

Side Support
Product code: TEXFEETSIDE   **Quantity:** 1

Accessories

Clear nylon strip 13.5 x 2.8mm
100m
Product code: TEXNYLON

Floor Plates

Circle (Ø 450 x 6mm)
Product code: TEXCIRCLE   **Quantity:** 1

Hoop (Ø 450 x 6mm)
Product code: TEXHOOP   **Quantity:** 1

Baseball (Ø 450 x 300 x 6mm)
Product code: TEXBASE   **Quantity:** 1

Fillet (Ø 500 x 180 x 6mm)
Product code: TEXFILLET   **Quantity:** 1

Accessories

Corner Connectors

L-type corner connector for textile frame

For profile: TEXSSLD15 & TEXSSLD19
Product code: TEXCORNL   **Quantity:** 10

Corner piece for LED textile frames

For profile: TEXLEDSS (BL/EL) & TEXLEDDS (BL/EL)
Product code: TEXLEDCORN   **Quantity:** 8

90 x 12 x 6mm

For profile: TEXSSLD15, TEXSSLD19 & TEXNICHE
Product code: CONNECTOR1   **Quantity:** 10

100 x 16 x 4mm

For profile: TEXLEDSS (BL/EL) & TEXLEDDS (BL/EL)
Product code: CONNECTOR2   **Quantity:** 10

Mounting Bracket

Bracket for LED textile frames

Product code: TEXLEDBRACKET   **Quantity:** 20
